**RE : FRASER & NEAVE/COCA-COLA UPGRADING WASTE WATER  
TREATMENT IN SHAH ALAM**

Dear Tom,

Thank you for your excellent support at such short notice for the successful completion of the above project using Airflex Disc Diffuser System. I am pleased to inform you that the client is very happy especially now that their power consumption has been greatly reduced and is now consuming about 30% of its original cost.

The plant is now meeting all the necessary standards as required by the department of Environment. This project has also served as an excellent reference for us as well.

We look forward to working together again for a long time.

Best regards,
